

# Needed Now More Than Ever

## Affordable Performance

Why spend over \$1,000 for headers? For about the same amount, you can get a set of PaceSetter's Quick Trip Long Tube Headers, extensions with high flow cats *and* a TFX Performance Exhaust System for your 2010 Camaro. With all that, the Horsepower per Dollar goes way up, doesn't it? All are built in the USA with PaceSetter's quality. You'll get performance gains that will amaze you!
